Dear Alex—

Thank you very much for the excellent work on our house. We are very happy with how it came out! The crew was very polite and neat, and the work was finished on schedule and just as we had hoped. We will gladly recommend you to any of our friends. (In fact, we already have!)

For preventative maintenance work such as this, it is always our hope that we will not have to call you or your company for a long time. But many years from now, when we do have to call on you again, it will be our pleasure to work with you once again.

I sent a payment this weekend; you should receive it this week. It is a payment in full, less the \$500 check I gave as a down payment.

Best,
—Matt Trawick
