**To Whom it May Concern:**

This is a reference letter on behalf of *The Carpentry & Painting Experts* for their work performed at the above address. We were extremely pleased with the results. All estimates that we received were fair and comparable with others, and the work was precisely as indicated in the estimate. Their **professionalism**, scheduling, and timely response to our requests were refreshing. Power washing, siding repair, and exterior house painting were accomplished in a **timely manner** between the two groups, which were highly organized, working just like one group. They arrived on time and worked all day, which demonstrated their strong work ethic. They were always ready for extra suggestions, and they agreed to replace additional rotten sidings, window frames, and also did additional painting. The work was completed in a timely manner, and they delivered a **quality job** with a reasonable price and no surprises at the end.

We have already given their name to our neighbor and to two close friends, and we would certainly not hesitate to recommend *The Carpentry & Painting Experts* to anyone who needs any of their services. We would definitely hire them again without any reservations.

Sincerely,

A handwritten signature in dark ink, appearing to read "Gevork Minaskanian", with a stylized flourish at the end.
