I would like to take the time to thank your employees Martin and Olga for working with me in getting my garage painted so beautifully and in a timely matter.

Martin was prompt and courteous. He went out of his way to assure me that the paint job will be done correct. He took extra time to go over the estimate so that I was comfortable with the estimate.

Olga, the painter was excellent. She was prompt, courteous and hard working. She was very detail-oriented and made sure that we were very happy with the paint job. When I need additional painting done in our home I will be requesting Olga to perform the job. Again, thank you so much for a job well done!

P.S. Here are "Before" and "After" pictures of the garage.

Very Satisfied
